Financial result of the Nova KBM Group

For 2010, the Nova KBM Group delivered a profit of €18,001 thousand from continuing operations.

The Group's profit from continuing operations before impairment losses and provisions was €101,223 thousand or 107.0% of the projected figure. The Group's operations were marked by difficult market conditions and slow recovery of economic environment. This was reflected in high net impairment losses and provisions. During 2010, the Group created net provisions and impairment losses of €83,222 thousand, which is 157.1% of the projected figure. As it is faced with a deteriorating loan portfolio and liquidity problems of its borrowers, the Group's net profit, reported by quarters, has been under pressure (for the last quarter of 2010, the Group reported even a loss).

Net profit of the Group in the amount of €11,413 thousand **exceeds by €2,041 thousand the net profit reported by Nova KBM d.d.** Apart from Nova KBM (€9,372 thousand), the following Group companies contributed the most to the net profit of the Group: PBS (€5,147 thousand) and Adria Bank (€2,333 thousand) as well as the associated company Zavarovalnica Maribor (€5,293 thousand). Credy banka reported a loss of €6,734 thousand (for the period from April through December). A loss was reported also by KBM Projekt (€9,772 thousand).

The Bank made in 2010 a **pre-tax profit of €11,365 thousand** from continuing operations and a **net profit** of €9,372 thousand. Net interest income, net fee and commission income, dividend income and other operating net income contributed the most to the result of the Bank.

Net profit from continuing operations accounts for 54.1% of the projection for 2010, mainly due to higher impairment losses and provisions which, as a result of deterioration in the loan portfolio, amounted to 170.5% of the projected figure.

Net interest income amounted in 2010 to €110,105 thousand, 8.1% over the projected figure and 3.9% over the 2009 figure, mainly as a result of lower-than-projected interest expense.

Net fees and commissions were €46,843 thousand, up 2.8%, or €1,293 thousand, from 2009, and 102.1% of the projected figure.

Financial position of the Nova KBM Group

- debts due to banks fell by €55,107 thousand or 4.2%
- debt securities decreased by €24,965 thousand or 27.6%.

Total assets of the Bank as of 31 December 2010 amounted to €4,806,511 thousand, up €17,134 thousand, or 0.4%, from the 2009 year-end. The growth in total assets accounts for 17.6% of the annual projection.

The increase on the **liabilities** side of the Bank's statement of financial position results, among others, from a change in **deposits from customers**, which increased by €78,541 thousand, and a change in **equity**, which rose by €7,370 thousand, mainly due to the realised net profit for the financial year.

On the **assets** side of the Bank's statement of financial position, the most significant changes were registered in **loans and advances to customers**, which went up by €170,231 thousand, and **investments in subsidiaries and associates**, which increased by €19,416 thousand as a result of the March purchase of shares of Credi banka in the amount of €9,416 thousand and the November capital injection worth €10,000 into this Serbian bank.

The 2010 realised net profit of €9,372 thousand contributed the most to the 2010 increase in shareholders' equity, while the reduction of €2,001 thousand in market prices of securities that are valued through equity had a negative impact on the growth in equity. Of the 2010 net profit, the Management and the Supervisory Board decided to allocate €5,979 thousand to regulatory, statutory and other reserves from profit, while the remaining amount of €3,392 thousand is the profit available for distribution, on the appropriation of which the Shareholders' Meeting will reach a decision.
