Calculation of quarterly charges for guarantees and endorsed bills issued for a period shorter than three months: in calculating charges on guarantees and endorsed bills issued for a period shorter than three months, a fee shall be charged for each month started equal to one third (1/3) of the applicable three-month rate, but not less than the minimum amount indicated.

Calculation of quarterly charges for guarantees and endorsed bills issued for a period longer than three months: in calculating charges on guarantees and endorsed bills issued for a period longer than three months, the first charge shall be applied by considering the actual number of days between the date of the guarantee or endorsement of the bill until the last day of the third month (the first month shall be the month in which the guarantee or endorsement was issued). For each next month started, the fee shall be equal to one third (1/3) of the applicable three-month rate, but not less than the

*Fees on guarantee transactions are determined based on the following criteria, as set out by the Bank's rules: credit rating, competitive aspect, collateral, other products held by the client, and other criteria. The decision shall be reasoned in the Business Case document.
