

THE LAND MARK YEAR OF 20 13

THE 2013 CORPORATE GOVERNANCE
STATEMENT OF NOVA KBM D.D.

CORPORATE GOVERNANCE STATEMENT OF NOVA KBM

1 CORPORATE GOVERNANCE CODE

The Corporate Governance Code comprises:

- **Corporate Governance Code for Public Limited Companies (application and deviation)**
- **Code of Best Practice for WSE Listed Companies (application and deviation)**
- **Corporate Governance Code for State Capital Investments (application and deviation), including recommendations given by the manager of direct and indirect capital investments of the Republic of Slovenia**

The Ljubljana Stock Exchange, the Slovene Directors Association and the Managers' Association of Slovenia jointly formulated and adopted on 8 December 2009 the amended Corporate Governance Code (hereafter also referred to as the 'Code') which came into effect as of 1 January 2010. The said Code is available on the websites of these entities.

During 2013, Nova KBM shares were quoted on the Ljubljana Stock Exchange and the Warsaw Stock Exchange. The Bank has set out the reasons for deviations from the provisions of the Code applied during 2013 in the section headed 'Corporate governance statement of Nova KBM', which is an integral part of the Bank's 2013 Annual Report.

In setting up and developing a transparent, clear and successful governance and management system, during 2013 the Bank endeavoured, as far as practicable, to comply with regulatory provisions and the highest standards of responsible and well thought-out governance of the Bank, as laid down in the Code, thus further increasing the confidence of domestic and foreign investors, employees, and the wider public in the governance of the Bank.

In addition to striving to maximise the Bank's value, the Bank complies with these standards in order to satisfy the interests of employees, creditors, and other stakeholders, as well as of the Bank as a whole. Taking into consideration its internal and global objectives, this approach shall ensure a successful and long-term growth of the Bank's assets.

The Bank and its bodies endeavoured to fully observe the provisions of the Code that was in effect and used in 2013. However, in certain instances the Bank's operations deviated from individual provisions of the Code. In compliance with the Preamble of the Code (and the principle of 'comply or explain'), the Bank sets out below the reasons for such deviations. The reasons were mainly related to the specific circumstances under which the Bank operated due to changed conditions in the Bank and in its environment (market); to payment characteristics of the banking sector; to the specific ownership structure of the Bank; and to other circumstances which had an impact on the governance and management of the Bank.

As a result of being listed on the Warsaw Stock Exchange (WSE), in 2013 Nova KBM also complied with the Code of Best Practice for WSE Listed Companies. In its Statement of Compliance with the Code of Best Practice for WSE Listed Companies, which is an integral part of the Bank's Corporate Governance Statement, Nova KBM has provided justification and explanation for which recommendations of this code had not been complied with in 2013.

As of 31 December 2013, Nova KBM shares (KBMR) were no longer quoted on the Ljubljana Stock Exchange and the Warsaw Stock Exchange due to being cancelled as a result of extraordinary measures imposed by the Bank of Slovenia. Based on the state-sponsored recapitalisation, on 18 December 2013 the Republic of Slovenia became a 100% owner of all the newly issued shares of Nova KBM (KBMS). These shares, however, are not quoted on a stock market.

As a company in which the Republic of Slovenia holds an equity investment, in 2013 Nova KBM also complied with the Corporate Governance Code for State Capital Investments, adopted by the Management and Supervisory Boards of Slovenska odškodninska družba (SOD) on 15 May 2013 on the basis of the provisions of the Slovene Sovereign Holding Act (ZSDH). Until it is restructured into the Slovene Sovereign Holding, SOD is managing the assets of the Republic of Slovenia in accordance with ZSDH.

The purpose of this Code is to have clear rules determined in advance regarding the conduct of SOD in the management of capital investments of the Republic of Slovenia, and to set out expectations towards companies in which the Republic of Slovenia holds a capital investment, thereby complying with the principles of responsible and due care as well as principles of transparent and effective management, taking into consideration the regulatory requirements to define commitments to a more active execution of management rights.

In April 2013, SOD issued an amended and consolidated version of the Recommendations of the Manager of Direct and Indirect Capital Investments of the Republic of Slovenia. The aim of these recommendations is to set up a sound corporate governance system for state capital investments, thus ensuring that state-owned companies are better regulated and managed.

Within its Corporate Governance Statement, Nova KBM, as a company in which the state holds a capital investment, states the extent to which it complied with the Corporate Governance Code for State Capital Investments, and individual recommendations of SOD.

Corporate Governance Code for Public Limited Companies

Point 1

Code provision

The key objective of a joint-stock company engaged in a revenue-generating business is to maximise the company's value. This, as well as the company's other objectives pursued in the course of its business, such as the long-term value creation for shareholders and the social and environmental aspects ensuring a sustainable development of its business, is stated in the company's articles of association.

Reason for deviation

The objectives of the Bank are set out in each year's business policy and financial plan, and in the Bank's strategy. They are also laid down in the Corporate Governance Policy of Nova KBM. In 2013, the Management Board decided to incorporate the main and other objectives that the Bank pursues in carrying out its operations into the Bank's Articles of Association.

Point 5.7**Code provision**

If the shareholders' meeting is to decide on the management remuneration policy, it should adopt it at the proposal of the supervisory board and align it substantively with the current market situation and the situation in the company. The management remuneration policy should substantively follow the provisions of the Code, and should define:

- the amount of non-variable remuneration to members of the management board
- the possibility of variable remuneration for a member of the management board
- criteria used for determining types of variable remuneration
- any potential restrictions with respect to variable remuneration
- the annual dynamics of setting the criteria for variable remuneration
- specification of remuneration given as shares, stock options and other types of financial instruments, along with any restrictions of such remuneration
- the annual assessment of the criteria being fulfilled and of the supervisory board activities in this area.

Reason for deviation

In 2013, remuneration of the Management Board complied with the Act Regulating the Incomes of Managers of Companies owned by the Republic of Slovenia and Municipalities, and the Regulation on Setting the Highest Correlation of Basic Payments and the Rate of Variable Remuneration of Directors.

Point 22.7**Code provision**

The company discloses the gross and net remuneration of each member of the management board and of the supervisory board. Such a disclosure is clear and comprehensible to an average investor, and includes aside from statutorily-imposed content:

- an explanation how the choice of performance criteria contributes to the company's long-term interests
- an explanation of the methods applied to determine whether the performance criteria have been met
- precise information on the deferment periods with regard to variable components of remuneration
- information on the policy regarding termination payments, including the criteria conditioning termination payments and the amounts of termination payments
- information with regard to vesting periods for share-based remuneration
- information on the policy regarding the retention of shares after vesting
- information on the composition of peer groups in companies that have been studied with respect to their remuneration policies in the course of setting up a remuneration policy in the company concerned.

Reason for deviation

With respect to the disclosure of remuneration of Management Board members, the Bank fully complies with legal requirements, as evident also from the Annual Report. In accordance with the provisions of the Companies Act and the Bank's Articles of Association, the Management Board of the Bank informs the shareholders of the Bank, at the Shareholders' Meeting at which the resolution on the appropriation of profit available for distribution is passed, about the remuneration paid to members of management and supervisory bodies for performing their duties in the previous financial year.

In 2013, the Nova KBM Supervisory Board adopted the currently applicable remuneration policy. The disclosure of remuneration provided to Management Board members in 2013 is compliant with the remuneration policy and follows the recommendations of the Code.

Code of Best Practice for Warsaw Stock Exchange Listed Companies (Code of Best Practice for WSE Listed Companies)

Nova KBM sets out below a brief description of its non-compliance with certain provisions of the Code of Best Practice for WSE Listed Companies in 2013.

Recommendation I. 1 with respect to the scope of a company's website

Nova KBM maintained on its website information for investors that conformed to the Slovene market standards. Nova KBM did not enable on-line broadcasts of its Shareholders' Meetings over the internet, nor did it record Shareholders' Meetings or publish the recordings on its website.

Rules II. 1.7 with respect to the publication on a company's website of shareholders' questions on issues on the agenda of a Shareholders' Meeting

In 2013, Nova KBM did not publish shareholders' questions on its website because, according to Slovene legislation, shareholders do not have the right to submit questions concerning the agenda of a Shareholders' Meeting.

Rules II. 1.9 (a) with respect to the publication, in audio and video form, on a company's website of the minutes of a Shareholders' Meeting

The minutes of Shareholders' Meetings are prepared in the form of a notarial record, and published as such on the Bank's website.

Rules IV. 2 with respect to the amendment of the rules of Shareholders' Meetings

Rules of Shareholders' Meetings are not mandatory under Slovene legislation and Nova KBM has not adopted such rules.

Rules IV. 6 with respect to the date of setting the right to dividend and the date of dividend payment

Nova KBM has usually paid dividends after the date of setting the right to dividend, within a period longer than 15 business days, as laid down in the Code of Best Practice for WSE Listed Companies.

Rules IV. 7 with respect to a conditional dividend payment

Conditional dividend payments are not allowed under Slovene legislation.

Rules IV. 10 with respect to a company's duty to broadcast on-line its Shareholders' Meetings and to enable its shareholders to exercise their right to vote at Shareholders' Meetings using electronic communication means

In 2013, Nova KBM did not enable on-line broadcasts of Shareholders' Meetings, nor did it enable its shareholders to exercise their right to vote at Shareholders' Meetings using electronic communication means.

The Corporate Governance Code for State Capital Investments (application and deviation from provisions)

Point 75

Code provision

SOD will strive for companies with equity investments of the state to establish nomination committees as a special commission of the supervisory board. These will ensure adequate mechanisms regarding the selection of candidates for members of the supervisory board and overcome conflicts of interests which the supervisory board is faced with in the preparation of the proposal for the composition of the supervisory board. The nomination committee performs selection procedures of candidates and proposes to the supervisory board a list of candidates for appointment at the shareholders' meeting. The nomination committee may support the supervisory board in all other matters which directly relate to the interests of the members of the supervisory board and require consent of the shareholders' meeting (for example, the proposals concerning the remuneration of the members of the supervisory board).

Reason for deviation

The Nova KBM Supervisory Board appointed the Remuneration and Nomination Committee in 2011. Its competences comply with the Banking Act and implementing regulations of the Bank of Slovenia. In 2013 the appropriate procedures for the assessment and selection of candidates for members of the Supervisory Board were entirely carried out by the Remuneration and Nomination Committee.

Point 87***Code provision***

Shareholders must annually approve the remuneration policy at a shareholders' meeting. The preparation of a remuneration policy falls under the responsibility of the chairman of the supervisory board and appointment commission if formed. At the shareholders' meeting the chairman of the supervisory board presents to the shareholders the current remuneration policy and its implementation, and evaluates the function and the role of the remuneration policy. The supervisory board must ensure that the remuneration packages of the president of the management board and other members of the management board comply with the policy adopted at the shareholders' meeting.

Reason for deviation

With respect to the disclosure of remuneration of Management Board members, the Bank fully complies with legal requirements, as evident also from its Annual Report. In accordance with the provisions of the Companies Act and the Bank's Articles of Association, the Management Board of the Bank informs the shareholders of the Bank, at the Shareholders' Meeting at which the resolution on the appropriation of profit available for distribution is passed, about the remuneration paid to members of management and supervisory bodies for performing their duties in the previous financial year.

Remuneration of Management Board members complies with the currently applicable remuneration policy, which was adopted by the Bank's Supervisory Board in 2013. In accordance with the provisions of the Companies Act, the supervisory board of a company must adopt the remuneration policy in cases where the shareholders' meeting fails to do so.

Remuneration of Management Board members is adjusted to the Act Regulating the Incomes of Managers of Companies owned by the Republic of Slovenia and Municipalities, and the Regulation on Setting the Highest Correlation of Basic Payments and the Rate of Variable Remuneration of Directors.

Individual recommendations of SOD**Recommendation No. 2 – Remuneration of external members of supervisory board committees and other external experts with whom the supervisory board cooperates in its work*****Reason for deviation***

In accordance with the provisions of the Corporate Governance Code for Public Limited Companies, the Criteria for Remuneration to the Members of Supervisory Bodies of Companies with State Capital Investments and a decision of the Shareholders' Meeting of Nova KBM, the amount of remuneration provided to external members of Supervisory Board committees has been determined by the Supervisory Board, taking into consideration the recommendations of the Corporate Governance Code for Public Limited Companies, the Corporate Governance Code for Companies with State Capital Investments and certain recommendations by the Capital Asset Management Agency of the Republic of Slovenia.

The remuneration provided in 2013 to external members of the Supervisory Board committees and other external experts with whom the Supervisory Board cooperates in its work was adjusted in accordance with the Corporate Governance Code for State Capital Investments, and the Recommendations of the Manager of Direct and Indirect Capital Investments of the Republic of Slovenia regarding the remuneration provided to external members of supervisory board committees

and other external experts with whom the supervisory board cooperates in its work. These documents, issued in April by SOD, largely follow the content of recommendations issued by the Capital Asset Management Agency of the Republic of Slovenia.

Taking into consideration that remuneration of the Supervisory Board and its committees is in accordance with Point 8.12 of the Corporate Governance Code for Public Limited Companies disclosed in the Annual Report, the Bank does not include this information in the report submitted by the Supervisory Board to the Shareholders' Meeting.

Recommendation No. 4 – Work of the audit committee

Reason for deviation

The Bank does not comply with this recommendation as regards the part referring to the frequency of meetings of the Audit Committee. Meetings of the Audit Committee are convened in accordance with the decisions passed by the Supervisory Board, taking into consideration the competences of the Audit Committee, as laid down in the applicable legislation, and recommendations of good business practice applicable to the work of audit committees, and depending on the need to resolve specific issues.

Recommendation No. 5 – Three-year business planning by a company/group

Reason for deviation

The explanation of deviation given under the recommendation No. 6 (Quarterly reporting of the performance of a company/group) can be, mutatis mutandis, applied also to this recommendation. The Bank does not prepare three-year business plans, but prepares a standard document for each year – a Business Policy and Financial Plan of the Bank and the Group. This document is formulated by the Management Board and agreed by the Supervisory Board. The summary of this document is published on the Bank's website. The planning is based on the adopted strategy.

Recommendation No. 6 – Quarterly reporting of the performance of a company/group

Reason for deviation

The Bank deviates from this recommendation because it has set up a governance system that complies with the principle of equitable treatment of all shareholders. This means that the Management Board fully observes the principle referred to above also in exercising the right of shareholders to information. Equitable treatment of shareholders in this regard prohibits the Bank from putting certain shareholders in a privileged position that would occur if quarterly reports were submitted to SOD as the representative of the largest, but not the only, shareholder of the Bank.

The Management Board prepares quarterly, half-yearly and annual reports, of which the Supervisory Board is informed in accordance with the Companies Act, the Banking Act and executive regulations. These reports are publicly available and may be examined by shareholders, and are also published on the Bank's website. In its Corporate Governance Policy, the Bank has defined the equitable right to information of all shareholders as one of the most important principles of its corporate governance. This principle is exercised based on open and transparent communication with shareholders. The Bank fully complies with the Corporate Governance Code for Public Limited Companies as regards the part concerning reporting and transparency requirements.

Recommendation No. 7 – Transparency of procedures of making business deals involving company expenditure (ordering goods and services, grants, sponsorships)

Reason for deviation

The Bank does not comply with this recommendation as regards the part referring to the transparency of procedures when making business deals in accordance with the Public Procurement Act, since this Act does not apply to banks. Nevertheless, in negotiating and making any business deals, the Management Board and competent departments of the Bank act with due care and diligence and according to the highest ethical standards, objectives, strategies and policies of the Bank, all in the best interests of the Bank.

In accordance with the regulations governing the protection of internal information, the Bank also classifies as internal information any data that concerns business or events occurring at the Bank and its affiliated companies that may have a material effect on the performance or position of the Bank and the Group as a whole. Pursuant to the regulations and its internal rules, the Bank publishes such information through the information dissemination system of the Ljubljana Stock Exchange and on its website.

With respect to the publication and reporting of grants and sponsorships as well as of any other transactions which may incur costs, the Bank respects the confidentiality of information and does not reveal any information that is classified as a business secret. Such information is not published by the Bank, since its release may have a negative impact on the Bank's customers and other business partners.

Recommendation No. 8 – Optimisation of labour costs in 2013 and 2014

Reason for deviation

In 2012 and 2013, the Management Board of the Bank adopted certain cost-cutting measures and adjusted the remuneration policy to the current economic conditions. These measures have been set out by the Management Board in the Strategy of the Bank and the Group for the period from 2010 to 2013, and in the Business Policy and Financial Plan of the Bank and the Group for 2013 and 2014. Following the initiative of the Remuneration and Nomination Committee, the Supervisory Board of the Bank requested the Management Board to reduce the operating costs across the entire Group and to start negotiations with the aim of adjusting the collective agreement to weak performance of the Bank.

Information about pay-outs relating to other types of remuneration provided under individual contracts (severance benefit paid to employees who are made redundant for business reasons, severance benefit paid upon retirement, compensation for a non-competition clause, and some other remuneration under employment contracts) is disclosed in the financial part of Nova KBM's annual reports and is publicly available.

To protect confidential information, the Bank and companies in the Nova KBM Group do not publish binding collective agreements or arrangements regulating remuneration for work, which they have entered into with representatives of the trade union.

Recommendation No. 9 – Risk management, internal control and internal auditing

Risk management, internal control

Reason for deviation

Nova KBM does not deviate from the provisions of this recommendation referring to risk management and internal control.

Internal auditing

Reason for deviation

The Bank deviates from the recommendation stipulating that the Supervisory Board shall approve the medium-term internal audit plan, since, in accordance with the doctrine of internal audit, the formulation of such a plan is not mandatory. Irrespective of that, the Bank will formulate the medium-term internal audit plan and will submit it to the Supervisory Board.

Recommendation No. 11 – Attaining quality and excellence in the operations of a company/group

In 2013, the Bank continued to hold the ISO 9001:2008 certificate (issued by the International Organization for Standardization) for its retail operations. This standard specifies the requirements for an efficient quality management system that meets the demands of customers. In terms of content, the requirements of the standard do not deviate from the criteria used by the EFQM Excellence Model to assess the development of excellence and quality improvement.

Recommendation No. 12 – Shareholders’ Meetings

Notwithstanding the recommendation that a Shareholders’ Meeting must be convened as soon as possible and not later than 14 days following the receipt of the request from a shareholder, the Bank complies with the provision of the Companies Act, which provides that a Shareholders’ Meeting must be convened as soon as possible, but not later than within two months of the receipt of such a request.

To enable the shareholders to post questions regarding the operations of the Bank, or to post questions in the period pending a Shareholders’ Meeting, the Bank has set up the Investor Relations section on its website, which conforms to the Slovene market standards.

2 DESCRIPTION OF MAIN FEATURES OF INTERNAL CONTROL AND RISK MANAGEMENT IN CONNECTION WITH FINANCIAL REPORTING PROCEDURES

The aim of internal controls is to ensure that the risks to which the Bank is exposed are properly managed, that proper accounting principles as well as internal and external financial reporting and communicating are applied, and that the Bank’s operations are carried out in compliance with law and business ethics. Internal controls are established within all processes and organisational units of the Bank and the Group, at all levels.

Risk management is an important part of the management and governance system. It relates to the systematic identification, measurement, and assessment of risks arising from operations of the Group and its environment. Procedures of risk management, the objectives for risk management, as well as duties and responsibilities for managing risks are set out in respective risk management policies. A general rule applies that each company in the Group is responsible for identifying and managing all risks to which it is exposed in its operations.

Assessing and managing risks has an important impact on setting up the business and strategic plan of the Bank and the Group, and on the decision-making process in commercial transactions, individual agreements, investments and other activities.

Control over risk management is based on monthly reports which are reviewed by the competent bodies of the Bank responsible for monitoring the exposure to individual types of risk.

For the purpose of obtaining a complete overview of risks to which the Bank and the Group are exposed, a Risk Profile is created once a year, which contains an assessment of the key types of risk and of the related controls. This document is reviewed by the Policy Approval Committee which is also responsible for adopting new policies and changes to the existing ones. A Risk Profile of the Bank and the Group is also presented to the Audit Committee and the Supervisory Board.

The Internal Audit Centre assesses the adequacy and efficiency of applicable internal controls, including information technology security and control, and assesses their reliability in accomplishing the strategic and implementation objectives of the Bank, at the same time taking into consideration the management of risks to which the Bank is exposed. The Internal Audit Centre reports to the Management Board, the Audit Committee and the Supervisory Board on a regular basis.

The system of internal controls and the risk management system are examined each year by external auditors appointed for the audit of the Bank’s annual report.
